REPRESENTATIVE IN Buenos Ayres
Edw. F. Powers.

The above Company have acquired the Rights, Patents, Concessions, Goodwill and Interests of Frederick Allan Gower and Benjamin D. Manton, as existing under a contract between them, dated July 20th, 1880, in the City of Providence, Rhode Island, in the U. States of America.

It is now the purpose of this Co pany to extend Telephonic Communication to the Public of the City and Province of Buenos Ayres on a more thorough and systemat c plan than heretofore attempted. To accomplish this they will supply the latest approved form of the Gower-Bell Loud-speaking Telephone with appurtenances for some of the most recent and perfect manufacture, and at the same time having at hand a thoroughly experienced and efficient staff of operatives and assistants, hope t attain such success as will bring them to the front as the First Telephone Company of the River Plate.

When a commercial, and even a social, community have the full benefits of a well-organized Telephone system, it is only then the many and great conveniences of this wonderful invention are thoroughly understood and fully appreciated. It is the wish of the Company to effect this in Buenos Ayres, as has already been done in all large cities of the United States, where it is estimated more than 500.000 instruments are in use. In fact, it has come into such universal use there that its loss would be most severely fe t by the Public generally. The Company will introduce into this city the American system in its entirety.

The management would ask the kind indulgence of the Public for a few weeks, as much has to be done and many obstacles overcome before the proposed system can be put in a satisfactory condition, at the same time he begs to state it will be his utmost endeavour to give as perfect a service immediately as is consistent with the multitude of work on hand.

As Buenos Ayres is a city of magnificent distances, the Gower-Bell Telephone will be found in its working the most practicable as well as the simplest and strongest instrument ever invented, and it was on account of these favorable and self-evident qualities that it was specially adopted as THE TELEPHONE for the Telegraph Department by the British Government, who have contracted with the above named Company for 15,000 instruments. It is also extensively used in France and Belgium, where it has given general satisfaction.

The Company has secured the fine and commanding premises situated at 128 Calle Florida, where it would be pleased to exhibit the working of its system to those of the public who are interested in the development of this great time-saving invention.

Subscriptions to Exchanges, $175 per month.

Private Lines, special terms on application.

Any further information the Local Representative would be pleased to give personally or by letter.

Rheumatism!
After having suffered from the gout for years in Europe, being attended by the best physicians in Belgium, Denmark and Sweden, without any result. I have at last after many years study, and great expenses, invented an infallible remedy, which ought to be kept in every house, to keep out the enemy of mankind. It will in a very short time cure any sort of gout or rheumatism, whether acute or chronical, such as pain in the face, chest, back, or teeth, arthritis in the head breast, knee, or knee, pains in the side, the back or the hips etc.
This remedy is wadding prepared against rheumatism. To be had at three hard dollars a piece, only by address to Professor H. Kaufmann, 101 Cerrito Street, (alias) Montevideo.

National Money.
The following decree has been issued by the National Finance Minister ordering that from February 1st all national liquidations be made in national money:—
National Finance
Department
Buenos Aires January, 22d, 1882.
It being necessary for the E.P. to adopt some measure to secure, without difficulty, the fulfilment of the law of November 5th of last year, which determines the unity of money in the Argentine Republic; and considering:—
That before the time arrives to comply with what is specified in article 8 of said law it is well in order to facilitate the observance of the same, that the national unity be determined as a base of official value.
For although the Law of November 5th of last year allows the use in all documents of other moneys or unities than those named in the same, it does so only for the time being, and until such time as the amounts stipulated in article 7 of said law are coined.
That notwithstanding that the laws of the budget and of custom dues have been sanctioned in harmony with the unity of the money existing previous to said law, it is expedient that henceforward in all documents or liquidations, the equivalent of values be expressed in National Money, which is the sole one that must be used for keeping accounts and whose relation with other moneys in circulation has been fixed by decree of December 2nd, of last year.
For these reasons:—
The President of the Republic
DECREES
Art. 1. From the 1st of February next, all liquidations which may be made in the National Offices, in fulfilment of the Budget Law for 1882, of decrees or special laws to be complied with in the same year, or of the Customs Law, shall have their equivalents expressed in national money, even when the payment is made in accordance with the former money, and the entries in the account books shall be made in the same form.
Art. 2. From this date all omissions or exchanges of public bonds shall be done for their equivalent in conformity with the unity of the legal money; excepting those whose omissions may have already been decreed, or the printing of which has already been ordered.
Art. 3. All contracts celebrated in any of the moneys allowed, shall express the equivalent in National Money, even though the payment were made in the former.
Art. 4. Let this be communicated, published and inserted in the National Register.

THE SPECULATION IN WHEAT
During the whole of the year 1881 the people had to pay an exorbitant price for the staff of life. We now know that we have been all along victims of the speculators and millers, who, under the pretence of a short crop, were enabled to mystify the public and to keep up famine prices until the very eve of the new harvest, when it became notorious that instead of a previous short crop, there existed a considerable surplus in the hands of the millers and speculators. A regular stampede was the consequence, and a quantity of the surplus was shipped to Brazil, no doubt at a heavy loss. The millers of the province of Santa Fe were the principal losers, for nearly all of them were left with more or less heavy stock, and many had to sacrifice the whole profits of the year. There still remains a considerable amount of last year's stock of flour, and of course the holders' interest is to corner the market, and they have succeeded in doing it; and the community are still paying an enormous price for bread; a price that actually places it out of the reach of the poorer classes.
The *Standard* was the only paper that set the truth before the people last year, insisting that the stock in the country was superabundant for the consumption. The facts verified our convictions, and just before the harvest the excessive prices tumbled down to a rational level, and the public at last entertained hopes that bread might be given to the children in full ration. The public is again disappointed. By hook or by crook the prices of wheat has been raised to the highest quotations of last year, and the farmers are actually hoarding their grain in expectation of still higher prices.

This is a great misfortune for the country. We are playing fast and loose with an article that should at this moment be loading in our ports for Europe. We are receiving no benefit from it. Like National Bank shares wheat is tossed about in a spirit of pure gambling. The people suffer, but as long as a speculator can make a margin he is all right, and in fact it is only in exaggerated prices that the speculator can make money. When an article stands at its intrinsic value in the market speculation can only exist in a legitimate form. The intrinsic value of wheat at this moment is not more than seven dollars and a half gold per Santa Fe fanega of 375 lbs. We arrive at this by calculating its shipping value to Europe, and the price we have quoted is the extreme limit that can be paid in accordance with present prices in Europe. Notwithstanding this, we observe that a sale of wheat has been made in Rosario at 16½ Bolivian dollars, which is about 11 dollars gold. This comes close on to two dollars gold the bushel, an exorbitant price, or rather a fancy speculative price.
Had we statistical departments in all the provinces, we should know exactly by this time what quantity the crop reaches. This would at once put a stop to gambling with the principal article of subsistence of the people. But, in our almost total ignorance of agricultural returns, the speculator has a free field to propagate all kinds of false information. From what we can learn we do not entertain any doubt of there being a considerable surplus of wheat in the country. One proof is the fact that a number of houses, relying on the information they had acquired, made preparations for an export business, which, of course, is knocked on the head for the present.

The Valparaiso's Mails
London, Dec. 30th
Contrary to the somewhat gloomy views otherwise prevailing, our Paris correspondent states that M Gambetta is not only anxious that a commercial treaty shall be concluded with England, but is very confident that a satisfactory arrangement can be arrived at.
It is announced from Warsaw that the anti-Semitic disturbances there have come to an end. They closed with the Christmas holidays, it is said; but troops are still stationed in some of the streets, and about one thousand seven hundred arrests have been made, mostly of young men. Our Vienna correspondent, however, asserts that the latest reports received there represent the Jewish inhabitants as being still badly treated by the populace. According to the statement of an eye-witness, the rioters went to work quite systematically, and the police looked on without interfering. The military patrols only temporarily interrupted destructive operations. One correspondent even asserts that the riots took place 'by order.'
M. Rochefort has scored another success in the series of libel actions against him in connection with Tunisian affairs. M. Roustan was worsted some time ago. Yesterday it was M Challemel-Lacour's turn to prosecute the proprietor of the *Intransigeant*. For the defendant, however, the point was raised that the summons was invalid, because the full text of the law had not been reproduced in it. The objection was sustained by the court, the summons quashed, the defendant acquitted, and the plaintiff condemned in costs.
In France they are watching with interest the supposed projects of Prince Bismarck in reference to the Vatican. The Berlin correspondent of one Paris journal has discovered that the Prince's object is nothing less than the revival of the Pope's temporal power under new conditions, as he considers this would prove a strong bulwark against the advance of international democracy. He does not consider how the proposal will be received in Protestant Germany. He is concerned at present only with ensuring success in his negotiations with foreign Powers.
Roumanian Ministers are apparently to be closely questioned as to the settlement of the dispute with Austria. One Deputy wishes the diplomatic correspondence on the subject to be published. Another is anxious to know what measures Government has taken to protect Roumanian interests in connection with the Austrian restriction on the exportation of cattle.
Hollaender, a French subject, who was arrested in Berlin on suspicion of being the person who threw the bomb that killed Alexander II. of Russia, is about to be handed over to the Russian authorities in consequence of an understanding having been arrived at with the French Government.
With considerable pomp the Gaikowar of Baroda has been invested with full powers of administration. He professed himself profoundly loyal to the Empress of India, and declared he would follow out a simple programme of government.
Yesterday the remains of Mr George Edmund Street, R.A., were buried in Westminster Abbey. The body lies close to the graves of the late Sir Gilbert Scott, Sir Charles Barry, and Robert Stephenson, near to the centre of the nave. The President and Council of the Royal Academy, officers and members of the Institute of British Architects, of the Antiquarian Society and of the Architectural Association took part in the procession, which was also joined by the carriage of the Prince of Wales. The funeral service was read by Dean Bradley.
Government have offered a reward of £100 and a free pardon to any accomplice for information as to the theft of the body of the late Lord Crawford. To this sum the present Lord Crawford has added £500. It seems the authorities have been in communication with two of the persons implicated in the outrage, but they can get no direct information, owing to their fear of arrest. It is understood, however, that six persons were combined in the affair.
In a bedroom of a house in Manchester yesterday, the dead bodies of a man and woman were found; and the pair are supposed to have been dead more than a week.
There was a rumour yesterday that Major Bond, who has just resigned his position as head of the Birmingham police force, had been appointed to an Irish police commissionership at a salary of £1,000. The rumour, however, has since been contradicted.
Mr Gladstone's seventy-second birthday was celebrated at Chester last night by a banquet, attended by the leading Liberals of the district. In many other places meetings were held, and congratulatory resolutions passed.
Before the examination of witnesses was resumed at Wandsworth Police-court yesterday in the Wimbledon Mystery case, Mr Woatner announced that the analysts had practically completed their work, and that they had found most positive traces of poisoning by aconite. Portions of the stomach of the boy John had been given to animals, causing their death in a manner precisely similar to that described in the case of the dead student. Evidence was given as to the further sale of poisons to Lamson, and as to the death at Dr Lamson's house at Rotherfield of Hubert, Percy's brother.
Lieutenant Henry Ponsonby volunteered his testimony yesterday at the inquest on the body of the barmaid Emma Cummins, who recently committed suicide under very distressing circumstances. Lieutenant Ponsonby contradicted her story in several particulars, and declared that he had not promised her £25 a month. The jury returned a verdict of suicide while in a state of insanity, but gave vent to their 'intense feelings of disgust at the misconduct' of Lieutenant Ponsonby, whom they declared 'morally, though not legally' responsible for the death of the young woman. An angry crowd collected outside the hall where the inquest was held; and the police had difficulty in protecting the Lieutenant from being lynched.
Application has been made at the Mansion House for a warrant with a view to extradition proceedings against the Marquis of Hundy, accused of procuring over £2,000 on false pretences from Mr. Benjamin Nicholson. When last heard of Lord Huntley was in Constantinople. He is now supposed to be somewhere in Russia. The Lord Mayor thought it better to postpone the case till Jan. 12; and if he did not appear then it would make stronger the grounds for a warrant.
At the Stock Exchange yesterday the settlement was concluded with the announcement of only three small failures, and a general rise occurred in prices, many purchases being made for the new account. Foreign bonds and home and Canadian railways were in prominent request. Some of the American lines also improved, as well as Consols. At the Bank about £50,000 in gold was sent in.

The following letter has been addressed by the Chief Secretary to each of the five Resident Magistrates recently appointed over the disturbed districts, to whom increased powers have been given:—
'Dublin Castle, Dec. 28 1881.
"Sir,—The disturbed condition of the counties named in Schedule A, hereto annexed, and especially the prevalence of intimidation and agrarian outrage therein, is engaging the anxious attention of the Lord Lieutenant, and I am directed by his Excellency to inform you that he has been pleased to appoint you a Resident Magistrate for these counties. His Excellency requests that you will, with all convenient despatch, visit the different constabulary districts in the counties named in the Schedule B, hereto annexed, and in the first instance after conferring with the local magistrates, the county and sub-inspectors of constabulary, and also the military authorities, report to

him as soon as possible whether the police force in any particular district is sufficient; if not, to what extent it should be increased, and what arrangements you consider should be made for the better distribution of the police force and more efficient system of patrolling, and also for the co-operation of the military and police in patrolling, so that the constabulary and the troops within these counties can be more efficiently used for the prevention of crime and the protection of life and property, and that his Excellency's orders to the constabulary on the above subject may be promulgated to county and sub-inspectors by the Inspector General. The Resident Magistrate, county and sub-inspectors of constabulary, and the commanders of detachments of troops in these counties will be requested to give you every information and assistance in their power, and the constabulary will be instructed to produce their patrol-books and all other documents relative to crime in the district you may wish to consult whenever required; and, relying on the knowledge and experience both of yourself and of these gentlemen, his Excellency thinks it probable that you and they may agree in the advisability of some beneficent changes in the present arrangements. If so, time being of great importance in the present emergency, his Excellency desires that these changes should be at once carried into execution, subject to the subsequent revision of the Inspector General, with his Excellency's approval. You will also report whether you consider the present detachments of troops within these counties should be changed in number and force, and whether any additional detachments are required, and, if so, how and where to be accommodated and of what force. You are also requested to report as to the working both of the Protection of Person and Property Act and the Peace Preservation Act in these counties. Upon the completion of the above mentioned duties you will receive further instructions as to the other duties you will be required to perform. In order that you may devote your whole time to the performance of the above-mentioned duties, a temporary Resident Magistrate will be appointed to take charge of your present district.

"I am, Sir, your obedient servant,
"W. E. FORSTER."

The counties named in Schedule A as especially disturbed are Clare, Limerick, Galway, Kerry, Cork, King's and Queen's counties, Leitrim, Westmeath, Roscommon, Waterford, and Tipperary

The letter is addressed to Captain A. S. Butler, the Hon. T. O. Plunkett, Captain Slacke, Mr. Clifford Lloyd, and Mr. Blake.

## LONDON LETTER

(*From our own Correspondent*)

Dec. 26th.

Mr Herbert Gladstone, who has been on a visit to Ireland, tells us that the state of the country is much exaggerated. There is no question about that, because it is admitted by the correspondents in Ireland of London papers whose cry it is to make the worst of every case of outrage. That horrid deeds occur, and that the victims are not great landlords but poor farmers, and even labourers, is only too true. But we have to ask ourselves, if, as Mr Dennis Croftus an Irish landlord, recently stated at a meeting of Irish landed gentry, these villainies are limited to certain districts and to one-teuth, or as he said perhaps one twentieth of the population, what immediate legislation, or what restrictive measures can reach such natures and such long-seething degradation? A degradation that displays itself in agrarian crimes, which from their semi-political motives are at least less vile than the daily outrages amongst the wife-kicking, skin-smashing 'eavers of arf bricks in the more savage districts of England, and in these districts there is an ancient resident aristocracy, a polite, if not very active clergy, many wealthy employers of labour and a well-to-do middle class. In many of the disturbed districts of Ireland there is bog and mountain and mist from one end to the other. The plantations of an ill-kept Irish demesne are like estancia houses in Patagonia, and only remind the people of their hopeless misery and of rent day. The Irish landlords have just had a preliminary meeting at Dublin. It was most characteristic. They had only one cry—'money'—'give us compensation;' if we are not allowed to rack-rent as we choose.' Then there was an idea that at the meeting, although consisting of the 'gentry' and of the descendants of the old Irish aristocracy—who one of the speakers confessed had not behaved with half the pluck shown by the Irish democracy—still there were not enough of lords and dukes in the room, and it was thought best to postpone the meeting, as there was another to be held on the 31 of January, when great personages were to be present. There was not a word said as to the origin of the Land Act, or as to that origin of much of the crime and discontent, which is nothing less than the same Anglo-Irish rapacity, now ending in a contemptible bleat for 'money.

It is not very cheering for home-rule prospects to find that the National Exhibition of Irish Art and Manufactures, proposed by eminent merchants and other citizens, to be held next year in Dublin, is abandoned. The Jister people wished that the Exhibition should have no political colour, and they thought the best way to avoid that was to place the Exhibition under the direct patronage of Her Majesty the Queen or one of the Royal Family. Mr Dawson, M.P., who represents the extreme faction in the Dublin Common Council, objected to the Exhibition being placed under the patronage of royalty. It is thought that the object of the extreme party was to propose Mr. Parnell as President. Taking an impartial view of this lovely specimen of the hopelessness of all union in Ireland, the Ulster people in their vulgar middle-class ostentation of loyalty are just as 'cussed' as the most thoroughgoing Parnellites.

In rather an underhand way, that is by proclamation of the Chief Secretary of the Lord Lieutenant, the Ladies' Land League, and probably the Childrens' Land League, have been dissolved, or proclaimed to be included in the sentence pronounced against the Land League proper. Of course Messrs. Biggar, Sexton, Lalor, O'Connor and O'Donnell have issued a manifesto exciting the people against the despotic Government which can attack women and children. They say that the Ladies' League was for a mission of charity.' The Irish Government even is not reliable, and does its best to make the well-meant but somewhat blundering measures of Mr. Forster of no avail. I was much amused on receiving yesterday a letter from a friend in the River Plate, in which he declined to speak on business, or, in fact, on any subject but on the one terrible event, 'the assassination of Mr. Forster.' The news, it seems, had just arrived at Montevideo by telegram. Where do you get your telegrams from? The frightful rubbish I see published is at least a consolation for London correspondents, whose occupation is not wholly gone.

Mr. J. Whittaker, Ellis, now Lord Mayor of London, is drawing by his officiousness in putting himself almost in antagonism to the Government, in regard to the 'Defence of Property in Ireland' movement. Mr. Gladstone has published the telegrams which passed between himself and the Lord Mayor. Mr. Ellis has thought proper to explain in print what are the objects for which the fund is collected. He adopts the following words, quoted from an Irish correspondent of a London paper—'To uphold the rights of property against organised combination to defraud, and to sustain freedom of contract and liberty of action.'

'Freedom of contract' is incompatible with the spirit of the late Land Act. Freedom of contract is very well for the Lord Mayor and Mr. Grenfell, the Governor of the Bank of England, to whom he addresses his letter; but these two arch-Philistines of Cockaigne must know that the Irish Land Act was passed because there was no freedom of contract between a landlord who had usurped a share of co-proprietorship belonging to the tenant and the tenant forced to make any terms to retain the property he had actually created.

Up to last night the Mansion House Fund for Property Defence had reached £7,100. For the Irish Ladies' Fund £9,900 have been received.

## EDITOR'S TABLE.

The mails by the Pacific steamer Valparaiso were delivered yesterday, but not a bit too early. We give the news in another column. The inquest on the unfortunate girl Emma Cummings nearly led to the 'lynching' of her betrayer, Lt. Ponsonby R. N., but, after a tough struggle, the police managed to get him away in a cab unharmed. Things are getting hotter and hotter in Ireland, and Mr Forster has appointed several more Resident Magistrates and adopted a new plan for dealing with the agitation. The Papal Question is now the great one with all the Continental papers. Some of the correspondents say that the 'Great Chancellor' has recovered all his former vigour and good spirits.

The weather warmed up again yesterday but was still far from Monday's awful heat.

Messrs Schwarz and Co, the well known founders, will probably get the order for the metallic curtains to be put up in the theatres, that is, if such things can be made here. The Lord Mayor has asked Mr S. to report if the curtains can be made here and their cost and the time required to turn them out. To our mind these curtains are the least of the precautions required to make our theatres safe. The chances are 100 to 1 that, as at Vienna, the man in charge of the curtain would bolt at the first alarm and forget to draw the bolt to let the curtain down. What is most wanted is easier and more numerous means of exit, and a proper service of fire-escapes, engines, etc.

Our Lomas friends have been a merry-making. The new Town Hall, lately finished, was inaugurated on Tuesday night with a most successful 'baile,' which, though the weather was most inauspicious, was kept up with unabated vigor till sunrise. The British community at that flourishing 'cus in urbe' was well represented on the occasion The stewards, Messrs. B. Moreno and Jacinto Roso, fulfilled their office to general satisfaction. The supper, served by the Confiteria del Aguila, was both 'recherche' and ample, while the other arrangements were in equally good taste. Vice-Governor Chaves was present at the ball.

In spite of what every one in town knows, viz, that typhoid fever is rife in the city, the official report of the *Revista Medica* on the health of the city cannot be called alarming. Our colleague says that coughs, colds and indigestion are the most prevalent complaints, although there is a little of everything going. The news from Rio could not be better—no fever at all there. All who reside in the city complain of the terrible effluvia that rises at night and early morning from the earth No wonder, when the whole of Buenos Aires is honeycombed with cesspools, some of them a century old.

There is an extremely funny case now before the Health Board: A Mr Mallod was within an ace of the world to come, owing to having taken a poisonous prescription made up for him by an apothecary. The latter does not deny that it was poisonous stuff, but declares that he made it up from a prescription signed by Dr Ezaguirre. The doctor, in his turn, acknowledges having signed the prescription, but Mr Mallod denies 'in toto' that he even knows Dr E, who as stoutly sticks to his text that he did attend him. It's a funny case, and, without wishing to offend either party, we may consider it clear that one of them is telling a pretty considerable 'crammer.' If the doctor could prove that he got his fee from Mallod, it would settle the case. There must be more in it than has yet met the public eye.

Tuesday's heavy rain was general all over the province, It was very badly wanted.

The *Prensa* says it is a sheer impossibility that the Continental Exhibition can be opened on the 15th prox. The machine department is not finished, although three steam engines are already in it; the concert room is not yet floored; nothing has been done towards levelling the ground or laying out the gardens; all the exhibits from the Interior are still in their cases: Biekhert's Beer Grotto is the most advanced thing in the place. There will be 3800 gas jets in the building, and 22 water cocks, in case of a blaze. The Committee have put on more steam and there are now 220 men at work instead of 152 last week.

Some extravagantly enterprising and impudent gentlemen had the happy thought of opening a bull ring near Plaza Once, during the Exhibition, without saying even 'by your leave' to the Municipality, and the building has been actually commenced. The Lord Mayor has asked the Chief of Police to put his heel on the business. Last year two or three successive attempts were made to get permission for a bull fight in this city, but the public voice was so unanimous against the brutal innovation that the thing fell through. This time the promoters of this savage amusement tried to snub the Corporation by dispensing with its permission.

The State agricultural colonies will be under military guard this year, as the 'Comisarios' have been suppressed by Congress. The Comisarios are a good riddance: they ruined everything they touched; look at the mischief they have done and are doing at Chupat.

Corrientes is now coming forward as a mining province. No fewer than seven mines have been 'denounced' to the Government there lately.

Letters from Paraguay say that business is better now in Asuncion than for a long time past. The yerba crop is magnificent, but that of tobacco is poor.

Two hundred able bodied men are now required to fill up the vacancies in the police force of the Capital, as an equal number of 'vigilantes' have lately retired from business, having made their fortunes, and wish to give others a chance of doing the same.

An enthusiastic Entre Rios colleague estemates that the exports of the Republic this year will be 70 million pats,—24 for wool, 30 for agricultural produce, and the rest for sundries.

A Sixth Epistle from Dr Pizarro to Dr Sarmiento appeared yesterday in the *Republica*, and the distinguished writer says he has more shot in his locker, and that "he who laughs longest laughs best".

It is proposed to lower the plates on which the names of the streets are to a level with the public elbow. "Cui bono?" Except for short sighted people. The game is not worth the candle—except to the contractors for the work.

We're improving slowly, after all, in this favoured land. The Municipality is going to make money out of the city 'vasura' this year. Instead of paying over 400,000$ m|c. per annum for having it burned, a smart Italian has contracted to pay the City Fathers 1,500$ m|c. a month for the privilege of performing the sunsavoury operation. He will make his fortune out of it. In Paris the 'vasura' contractors have made colossal fortunes.

A woman was nearly crushed to death on Wednesday in Calle Rivadavia through the axle of a cart overladen with timber suddenly breaking. The whole load fell on her, and she was carried home in a dying state.

Small-pox is assuming epidemic proportions in Montevideo, and many members of High Life have been attacked by the foul disease, which makes the alarm all the greater.

An interesting article from *Money*, on Argentine Finances, will be found in our Supplement to-day.

We regret to announce the death of Mr. Walter Stearn, who expired yesterday morning, after a lingering illness. The deceased gentleman was in the flower of his youth and universally liked and esteemed by all who knew him. We deeply sympathise with his bereaved family. The funeral takes place this afternoon:

We call attention to the important decree of the Government in reference to 'National Money' which will be found in another column.

The President of the Inspecting Committee of the Exhibition has sent Professor Kyle some of the 'meloucillo' root sent from the province of Salta to the Exhibition. It is reported to be of astonishing efficacy as a remedy for dysentery, and Professor K will doubtless tell us why it is so,

We cun the following from a home paper, for the special benefit of our friends of the Gun Club, in case they may not have read it before:—

"The votaries of the noble art of pigeon shooting had a fine time at Hendon on Monday afternoon, on the occasion of the match between the American, Doctor Carver, and a gentleman who shoots under the name of Gordon, being apparently too modest to appropriate in his own style and title the credit due to his prowess as a killer of pigeons. Dr. Carver sus ained his first defeat in this country—shooting at thirty-four yards rise he only succeeded in killing sixty-one birds out of the hundred. while Mr. Gordon, shooting with one hand at twenty-four yards, destroyed sixty-seven. The sport was agreed by all present to have been noble to the extreme."

Patacons ..... 25.10
Cedulas A ..... 100½
National Bank Shares .. 129½

The strain on the gold market continues and prices are very firm. It was stated that the Provincial Bank is restricting discounts in paper, and there is a prevalent opinion that paper money is getting rapidly scarce. The Bank discounts in gold that is sold immediately in the market, and finally results in an increase of buyers of gold at long dates; the policy of the Bank is viewed with suspicion in the market, and the tightening of paper money as usual is much disliked; when the paper money gets scarce all, the stocks in the market are affected and generally weakened. Gold rates to-day ruled for cash at 25.10 buyers; for end of month 25.15; for end of February 25.30, and end of March 25.40.

Cedulas continue weak; some sales in Series A were effected for cash and end of the month at 100½. Both Series E and A are weak, and operations in this stock for the moment are very limited.

The speculation in National Bank Shares was brisker to-day than yesterday; the bears renewed their attacks, but prices remained firm; people in general believe that the stock will remain about the present quotations until the end of the month. No weakness is visible in the stock, although there are many shares floating in the market, since only 25,000 shares have been deposited up to the present in the National Bank, in view of the meeting at the end of the month. Prices to-day opened weak and closed firm; the business of official hours did not amount to much. Cash prices opened at 129, rose to 129½, and close 1 at 129½. Over 2,000 shares were sold for the end of month; prices opening at 130 falling to 129½, and closing 129¾. 1,500 shares were sold for end of February; the market for the latter date closed at 131½. The cash sales have been during the month very slight, and speculation has been mainly directed towards operations for the end of the month, and especially for the end of February. Operations, nevertheless, for the end of February have fallen off somewhat, and the great contest now is for the end of the present month, when the liquidation will fall like a sledge hammer on many.

Some Chilian exchange was passed to-day at 50¾

In stocks there is nothing doing.

The sales at the ring were—

The new Government measure about National Money was much discussed on Change. Some think that the law refers to all operation with the National Government, and few can understand the gist of the measure, since the figures are based on a fictitious coin. The National Government might have awaited the opportunity when the patacons coined would be somewhat sufficient to warrant the bill. Little or no importance is attached to the rumor of the Bank lending the Government money, since in any case it is a mere provisional loan, as the Government has gold to fall back on. At all events, should the fact be true, it shews how prudent the Government must be and how carefully the relations between both the Provincial and National Governments must be kept up. A disagreement would be the signal for embarassments in the National Treasury and measures hostile to the Bank; in view of these facts Mr Pizarro's note in this morning's *Republica* was read with interest by the brokers, who try to make the most out of the contents and their probable results.

Discounts in paper are becoming more difficult since paper money is getting tighter: in gold they continue easier.

The Havelius arrived to-day in Montevideo; she leaves this port on the 11th of Feb. for Antwerp and Liverpool.

The Plato leaves to-morrow; her cargo is as follows:—

2100 bales
125 tons o linseed

and cases of minerals, specie and several hundred salted hides. The cargo of this vessel, published yesterday, was erroneous.

There are few Government Bills of 'Contaduria' now offering in the market and rates keep high.

The rain of the last days has been pretty general throughout the camp, and subscribers in from the camp state that it has done immense good in many parts where the lands were excessively dry.

There is not much doing in freights at the present moment as exporters are awaiting the end of the month, when the new valuation tariff will be enforced. An economy of from $28 to $30 m|c per bale of wool will be thus effected, and engagements for steamers leaving in the first days of February are very large. Freights otherwise continue firm for steamers, but there is not much doing for sailing vessels.

The Ptolemy is due in Montevideo next Sunday; a full cargo has already been engaged for her. She sails full for Antwerp on the 7th of next month.

The Mozart leaves on the 1st of February with the following cargo:—

2,100 hides
14,000 salted hides
300 pipes tallow
150 tons of tallow

Mr P Spinoghs was welcomed on Change to-day on his return from the North West camps. Lands out there are in good condition and the animals fat. It had not rained in Lincoln for the last month and a half, but the lagunas and arroyos were full of water.

We have been favored with the following important telegrams:—

"Paris, Jan. 25th

"We are in the midst of a financial crisis.

"Antwerp, Jan. 25th

"Several failures in Verviers.

"Prospects of public sales here very dull."

It was stated on the Bolsa that half the money broke s in Paris had smashed, having gone too deeply into speculation on the Bourse.

Telegrams from Montevideo confirm the statement that we made some days ago, announcing the failure of Sr Verraguti in his attempt to launch the Banco Real Mixto in the London market. Parties who know the ins and outs of the banking scheme assert that Montevidians may bless the refusal of the London capitalists to countenance the scheme. The Banco Mixto, in fact, meant blue ruin and 30 millions of paper money down in the Mount. It was intended to be a kind of hypothecary bank in the Uruguay; its failure was its best recommendation.

Deuda Amortizable in Montevideo is down to 18⅞; parties state that the Buenos Aireans have not yet sold out, and that if they do, they will be unable to realise at the prices they bought at.

Lumber in the market, it appears, is getting scarce. A cargo was sold down in Montevideo.

There is nothing doing in hides. The rain was much wanted for the 'faena', and very heavy killing is expected after the middle of February. Entre Rios saladeros as have not yet begun working in earnest.

The sale of 700 novillos for saladeros is reported at Lincoln, price 35½ m|c p. head.

Further bad news was received to-day from Bordeaux, announcing heavy failures. The crisis in France appears to be a serious one.

At afternoon it was stated that two gentlemen, intimately mixed up in the late Ministerial diatribes in the newspapers, met in the Plaza Victoria and resorted to 'vias de hecho.' The parties in question are principals in the discussion. It is a melancholy duty to record such 'can-cans' in high life of the day.

200 pipes of tallow from Rocca's saladero were sold to-day at 14 rls.

At afternoon there was a stand-from-under feeling in National Bank shares; about 1000 shares were sold for end of Feb. at 130½. Prices subsequently tumbled all over the line and the market closed as follows:—

end of month 128
do February 129½

The bears had the field to themselves, but there were few sellers in the market. The stock closed weak Nothing done in Cedulas or other stocks.

The wool markets are in a kind of 'statu quo.' One well-known 'artista' continues buying the good wools that arrive. In spite of the unfavorable advices from Europe the wool market is not so bad as depicted The Havre auction was a great mistake; the bales offered consisted of old wools and bad qualities. For years, there has not been such a magnificent season as the present one; the wools of all qualities are light and fine; it is problematical whether we will have another season like the present one for years to come. On the other hand the wool markets in Europe have constantly been bad, but the 'artistas' in spite of the fact, have been constantly buying and continue doing so at present, although on a limited scale. The European manufacturers cannot do without the light River Plate wools, and they are in the necessity of buying same. Inferior kinds of wool have suffered in value during the month but superior qualities always maintain their prices and are in demand. As we stated before, many consignatarios are committing the mistake of sending wools to deposit, awaiting the issue of the Antwerp auction, which cannot be favorable, owing to the heavy arrivals in that market. The engagements of bales in this market continue strong, and reduced valuation tariff next February must give rise to increased activity in the shipment of wool.

The Nord America has arrived in Montevideo from Genova, with a shoal of Italian emigrants.

Telegrams from Montevideo announce the following sales:—

150 pipes tallow Piñeyrua, at 38
1,000 Guruviyu hides 50|lbs. at 71½, of 49 lbs at 70½.
600 hides Mesnchos, at 53½.

The cargo of lumber of the Alice Roy from Quebec was sold in Montevideo, at reserved rates.

We remind Shareholders of the Italian Bank, that the meeting in the Bank takes place on the 27th inst.

Although the new Capital of the Province of Buenos Aires has not yet been determined, the Provincial Executive has already received proposals to erect the new Provincial Government Buildings. One party is looking out for a contract in bricks for the buildings and only wishes to know the place where the new Capital is to be raised. This is the great secret; he is a wealthy man, if he gets it, but it looks very like moonshine, and the debates in the Legislature must precede the settlement of the question. His offers to start a brick-kiln in the vicinity and to make 10,000,000 of fine English bricks at 450 m|c per thousand If the number of bricks were quadrupled it would look more business like, since the figure of the expectant contractor augurs his humble anticipations as to the size and prospects of the new Capital. Besides a Government House, a Legislature, a Palais de Justice, a Municipality, and a Cabildo, he must look forward to constructing Colon Theatres, Coffee houses, Billiard-academies, Social Clubs, and private buildings for all the followers of Provincial fortunes. The new Provincial Capital will have fifty thousand inhabitants twelve months after the Provincial Deputies have fixed the site. Escribanos and lawyers, Deputies and 'escribientes' &c., would soon fill up that round number.

We extract the following from the London papers to hand, under date 30th ult.

"To day being pay-day on the Stock Exchange the demand for money has been extremely strong, and most of it full upon the Bank of England, from which large sums were borrowed in the shape of advances on bills or stock; its former to run until payment of the dividends at the end of next week, the latter for five days. The total thus taken is estimated at £2,500,000, of which a considerable portion will be paid back before the issue of next return, but a further large sum is likely to be required during the next day or two. The Lombard-street rate for short loans was quite 5 per cent.—the Bank minimum—the supply of money being very small. There were, however, as is usual on the Stock Exchange settlement days, few bills offered, and the quotation for three months, paper was 4½ ⅝ per cent. At Paris the discount rate has been equal to that of the Bank of France, 6 per cent., and the charges at the Bourse liquidation will probably be as high as those which have been current here, say 10 to 20 per cent. According to telegrams received this afternoon from Bordeaux contradiction is given to a statement published this morning that a heavy failure had occurred in that city. No formal announcement, it appears, has been made, but the position of one or two houses is admitted to be uncertain.

"On the Stock Exchange the arrangement of the account showed that, as frequently happens when a difficult settlement is anticipated, the dealers had over-supplied themselves with money, and only three failures were notified, none of them important. One or two more, however, are anticipated to-morrow. Purchases were made on French account; better prices came to hand from New York, and some highly favourable traffic returns were published, the result of all being a general advance which was pretty well maintained to the close.

"Money continues in strong demand in the discount market and the charge for short loans is fully 5 o|o. There is also a considerable supply of bills, and short paper is quoted at Bank rate.

"The rates of the Stock Exchange are as follow:—

Congress made a great mistake when it suppressed the 'comisiones' of the colonies in the budget of expenses. These 'comisiones' may not have been worth very much, but certainly they were necessary to keep order and exert a moral influence in the National colonies. The Government now sees the mistake and finds no other clue to the difficulty than to send detachments of the line to guard the colonies and in fact make military settlements of them. This is a serious error; the colonist has a natural dread of the uniform, and experience has taught the world that military colonization is always a failure. France could never keep Algiers quiet, owing to the military governments that succeeded each other What colonies want the Government well knows; give them their own Municipalities and appoint an efficient police. With these two agents the colonies will prosper, but keep the soldiers aloof and the epaulettes of the officers. Soldiers never make good policemen; an officer can rarely make good administrator, especially if they are of a subaltern character.

The Oficina de Tierras and Colonias has thrown out the petition presented by Mr F Simon, asking for 45 square leagues of land in Misiones for colonization purposes. The Government should not countenance any of such proposals unless accompanied with a heavy guarantee, and even so, far better to leave such matters to the Emigration Department. The Commissary General should hold in his pocket title to say 50 square leagues of land and send up to Misiones the first two or three hundred Italian families that land in the Plata do Julio. This is the best way to colonize Misiones is so favorably known as regards fertility and climate that the success of one colony would be the basis of as many others as in Santa Fe. Private enterprise is already raising it head in that favored territory, and we hear that some five estancias have been started and stocked in the last twelve months. Many Corrientes obcendados prefer transferring their animals to Paraguay and Misiones, rather than remain in the Province of Corrientes. Sugar plantations are also going ahead, and a few years hence this territory may eclipse Tucuman in the sugar line. Misiones and the Nahuel-Huapi are the great provinces of the future.

The Port Captain has issued a decree, approved by the National Government, fixing the anchorage of all river steamers between the painted buoys in front of the beach. The buoys are stationed between the Cabdinas and passenger mole. No other vessels can anchor in the place, and we call the attention of Captains to the fact.

Don Serapio Zemborain, well known in commercial circles, died yesterday on his estancia in Mercedes. Deceased was much esteemed and widely known, and his decease creates a void in a large circle of friends.

The Aranconia left Lisbon on the 18th Jan. for the R. Plate.

The Monbo left Pernambuco on the 19th instant bound for the R Plate.

The Duero and America arrived at Lisbon on the 24th en route for England and the Mediterranean; the Tagus left that port on the same day bound for the R. Plate.

The lands between the Rosario wharf and the station of the Central Argentine Railway are to be soon expropriated; the decree was promulgated yesterday. The branch line of the railway to the mole will be an immense benefit to Rosario merchants and shippers.

The sale of 1,600 qq. of jerk d beef that we announced in our last did not take place, owing to non-acceptance of conditions. The cargo has been now sold at 56½ rls for the beginning of February.

The Decoud palace, now for sale, should be bought up by the National Government, and the probabilities point that way, since the Executive is in the market looking out for a building large enough to embody the surplus lawyers and escribanos who cannot sit in the Cabildo The magnificent position of the Decoud palace, the Renaissance architectonic time about it, and the view of the R. Plate may exercise the most healthy influence on the minds of the priests of justice and cut short many of the long delays that at present necessarily accompany every suit. There was some talk of the Government buying the Anchorena 'palazzo' in the Calle Corrientes, also in a very fine position, and if such be the case, we advise the English Literary Society to secure the Decoud palace; this magnificent building can be had a bargain, and the Society could continue paying off the mortgage at a light sacrifice; it is more adapted for a temple of literature than for justice, or for a bathing establishment.

The Valparaiso brings £25,000 stg., for the London and River Plate Bank in Montevideo.

The Cosmos took down to Montevideo in her last trip from this city 250 passengers.

The Adelaide has been chartered in Montevideo to load salt for Rio Grande at reserved rates, supposed to be 30s.

The following clearances are reported in Montevideo.

On the 23d Jan. the Italian brig Il Sapere for New York, by F L Humphreys, with 22,359 dry hides.

English brig Neva, for New York by T. W Howard with 5000 dry hides, 439 bales wool.

On the 24th Jan. Dutch schooner Stella Maris, for Rio Grande, by J R Schwartz, with 1045 iron rails.

The agents of the old Proveedor have presented a serious complaint to the Port authorities as to the marked preference and favouritism bestowed on the Campana boats to Rosario by the Campana R.R. Not less obliged and the Campana R.R. men are sure to remove all grounds for further complaints, that may arise from the indiscriminate policy of subalterns. The railway should shew no partiality and much less in such serious business as freight rates. We do not for a moment doubt that the manager of the line will immediately look into the question and have it promptly sifted.

A meeting of shareholders of the Transandine Telegraph Company will take place on the 6th of Feb. in Valparaiso.

We call the attention of our readers to the advertisement of the National Government in another column, referring to the National coin. Beginning from the 1st Feb. all operations with the National Government must be transacted according to the new money act. It must be borne in mind that the National parason or dollar represents a value of 97 cents as compared with the actual standard, leaving a difference of 3 o|o, that means much in heavy operations.

We shall sell for the highest offer over the base this splendid and admirably situated property, only 6 squares from the town of San Martin, in the partido of that name, and only a short distance from Olivos, which it is presumed will be made the future Capital of the Province.

It should not be forgotten that the law is sanctioned for making a macadamized road from Belgrano to the Tigre which passing through Saavedra will shorten the road to this beautiful Villa.

The Villa is known as the new or white house of Major Wysoski. The ground is 10 squares by 6160 vs or say 2,371,160 sq varas.

The house has 7 rooms on the ground floor with azotea roof and 3 rooms on second storey with French tile roofs, kitchen, room for cook, dairy house, store room, apartments and kitchen for peons, poultry house, three rooms on ground floor and 3 on second storey with galvanized iron roofs, corrals of posts and boards, corridors with French tile roofs, wire fences with ñandubay posts, and also in some parts cina-cina.

The property is mortgaged to the Mortgage Bank for 2600 pats.

Title deeds in perfect order.

The Villa can be visited by taking the Campana train to San Martin and from thence by carriage (charge $10) to the house.

BALTAR & QUESADA
## 300 Squares of extra-superior Camp

The richest and most complete in the neighbourhood of the Capital, land high, and undulating and consisting of beautiful vales, water permanent, fruitful soil suitable for agriculture, will be sold in small lots or in one lot. The attention of agriculturists is directed to the fact, that the camp is on the river Conchas adjoining the Morales' bridge, alongside Molino Bancalari. This camp should be visited there is no better in the province in regard to height, beauty, splendid pastures and picturesque situation

**And an opportunity of convincing yourself of this fact is offered you by attending the sale which will be held on the camp itself.**

On Sunday the 4th of September, at 4 o'clock in the afternoon, we shall proceed to sell to the highest bidder this magnificent piece of camp, divided into lots to place it within the reach of small capitals.

This camp needs no praise from us; a visit from anyone interested in acquiring land for cultivation or pasturage will be quite sufficient.

In regard to height it is most elevated, its undulations reminding one of the Banda Oriental.

From the ground a fine view is obtained of Moron, Moreno and Bella Vista, &c. With regard to the elevation of the land we remember the remark of a gentleman occupying a high position in the Government—"If it depended on me, I should have the new Capital built here." So much for the height of it.

The land is covered with grasses of the very best kinds suiting for pasturing or for wintering animals. There is an offer to rent the land with a contract at $120,000 m|c per annum. Therefore as agricultural land or for pasture, this ground is unsurpassed, and is equally adapted for either. The land has 2,065 varas frontage on the river Conchas by 3,600 vs depth, it is situated alongside of Morales' bridge, on the right hand side, and has been subdivided in small lots, but can be bought in one lot at option of purchaser.

For plans and further details apply at our mart San Martin 51.

## ARGENTINE SOLVENCY.

*(From Money.)*

The considerable attention which has recently been paid to Argentine securities has given rise to some adverse criticism of the prospects of the Republic. The scrip most familiar to the English investor are the Six per Cents. of 1868 and of 1871, and the Hard Dollar Bonds, which are quoted to-day, 101½, 96, and 88, the latter xd. These securities have had their own share of the ups and downs, the romance, it may be said, of the existence of state debts. The 1868 loan was as high as 100 in 1872, as low as 32 in 1876, and touched 102½ in the first half of the present year. And its career is typical of the changing values of the others. At one time in the year 1876 it appeared as though the whole country were doomed, and the prospects of its creditors hopeless. Yet the Confederation struggled on. It did its best. The first coupons of the Hard Dollar Bond, issued in 1872, were paid in specie; then payment was made in paper, with a bonus to recoup the depreciation: but after awhile the bonus was dropped, and the holder had to be content with a part only of his due. But the present year has given signs of a return to better things. In May it was rumoured that the interest on this particular debt would be once more paid in gold, the premium on the latter being at the time 14½ per cent. That the rumour had a sound basis subsequent events have proved, for the steps since taken by the Government promise to pay the coupons of the internal debt in gold after the 1st January next, and a return to specie payments within two years. As a consequence, the premium on gold has fallen to 2 per cent.

The position of the Confederation is the following:—It is responsible only for national liabilities, the provinces having their own municipal debts. There seems to be considerable uncertainty as to the exact amount of its liabilities; but the following will be found, we think, a concise statement of them in round numbers, the pesos fuerte (hard, or silver, dollar) being reckoned at 4s:

| | |
|---|---|
| 1868 Loan, 6 per cent..... | £2,500,000 |
| 1871 do..... | 6,100,000 |
| Hard Dollar Loan..... | 4,500,000 |
| 1824 Buenos Aires Loan.... | 2,500,000 |
| | £15,600,000 |
| Reduced by amortization. | 6,000,000 |
| | 9,600,000 |
| Treasury Bonds..... | 1,200,000 |
| | 10,800,000 |
| Debt to the Provincial Bank of Buenos Aires..... | 3,000,000 |
| Floating Debt..... | 1,500,000 |
| Other minor liabilities..... | 1,600,000 |
| | £16,900,000 |

The above represents the total indebtedness of the Confederation in May last, which sum may be divided into external debt, or debt dealt in abroad, of £10,800,000, and strictly internal debt of £6,100,000. The President, it should, perhaps, be said, in his last message, set forth these figures as £6,600,000, and £4,800,000 respectively, and has since stated the total to sum to £15,000,000. But the figures as given above may be taken as correct, and to them is to be added the new loan, issued this year in Paris, for £2,450,000, the proceeds of which, it is stated, are to be devoted to railway extension. It will be noticed that the process of redemption has been kept up. We will now briefly set forth the method to be adopted for the consolidation of the debts as they stand. On July 5th a law was passed for the emission of bonds for £4,000,000 (20,000,000 dollars), bearing 6 per cent interest, and 1 per cent sinking fund, which is to be taken by the Provincial Bank in payment of its debt, and the surplus to be used in the redemption of the Treasury Bonds and certain of the smaller liabilities. Special taxes are set apart to the service of these bonds, the proceeds of which will be paid in specie; and the Provincial Bank undertakes within two years to convert its notes at par. This, as we have said, is already law. But the Government intend to proceed further in setting their finances in order. They propose to issue, through one of the leading London houses, a 5 per cent loan for £20,000,000, which, if successfully carried through at a fair price, would enable them to consolidate the whole of their debt.

We have faith ourselves in the success of this operation, which will be of untold benefit to the nation. The revenue of the Confederation for the present year is put down at £3,980,000, the expenditure at £3,960,000. But the latter sum includes £1,700,000 for annual service of the debt, which would be decreased by one-third should the proposed loan be effected. There can be little doubt that the country has now entered into a long career of prosperity. Its vast resources and its admirable climate are unquestioned; one thing only is wanted to insure its rapid advance—peace. And this boon it seems likely to enjoy. General Roca came into power in troubled times, but he is believed to hold the reins of Government with a firm grasp. This fact is emphasised by the news, just to hand, of the amicable settlement of the boundary question with Chili. With anything like a prolonged term of peace, the satisfactory settlement of the debt is we think, assured. We are quite aware, in stating so much, that a good deal has been made of the disparity between income and expenditure last year. The Memoria of Hacienda, lately presented to Congress, acknowledged a deficit in the accounts of 1880 of £1,500,000. This excess was entirely caused by the extraordinary expenditure, which is not, we believe, yet entirely wiped out. The expenditure was caused by rebellion, and precautionary measures in regard to the West Coast war, the Confederation having at the time added largely to its navy. It is not wise, either, to blink the fact that each year has shown a deficit greater or less. These deficits, however, fell to a minimum in 1878 and 1879: and, eliminating the extraordinary expenses referred to, it may be said that in 1880 an equilibrium, but, by the adjustment of debt, as proposed, would be raised to a surplus. It should be remembered that the debts have not been incurred without something to show for them. The country has been opened up, the network of railways having been partly constructed at the expense of the state. There are also many indications of growing prosperity; the revenue is growing; the railway receipts on six principal lines of railways showed an increase for the first half of the year of 10 per cent on those of the corresponding period in 1880; the exports, which in 1879 reached a total of £9,558,000, reached last year £11,300,000, exceeding the imports by £2,500,000. These are signs, corroborated in other ways, of the expansion of the producing and consuming power of the country. But the fact we chiefly rely upon in anticipating the approaching solvency of the Argentine Confederation, is its procedure in the past. Amidst anarchy and distress it has done, if not all it promised, the best in its power. Moreover, if we come to compare its prospects with those of its neighbour Brazil, the latter troubled with an enormous internal debt and depreciated currency, the verdict must be, we think, not altogether adverse to it; and, as debt conversions are the order of the day, any proposal with regard to the Argentine loans should meet a favourable reception. To the investor it is well to remark that should our forecast be fulfilled, the value of the different six per cent issues should rise to more or less the same level, and therefore the lower priced ones offer him at the moment the greater attraction. In conclusion, we may observe that much indignation is expressed in Buenos Ayres at the proposal to subsitute Six per Cent Bonds for the Nine per Cent Treasury Bills; and assurances to the contrary notwithstanding, there is no certainty as to the ultimate treatment of what is, after all, a portion of the internal debt of the country.

---

We recommend the following way of raising the wind to camp Municipalities, although we believe the process is already known, but is carried out in a much slower manner:—

"The *San Francisco News Paper* thus explains the way in which small inland towns out West manage to support a mayor and corporation. A gentleman was musing on this subject as the steamer landed at Vallejo the other afternoon. On his way to the cars he recognised an acquaintance ahead of him, and slapped him on the shoulder. In an instant he was arrested and struggling in the grip of a 6ft. policeman. 'What's this for?' ejaculated the astonished prisoner. 'Sh-s-s,' said the policeman; 'not a word; be quick now, or you'll miss the train!' In a few minutes they were in the police station, and a charge of assault and battery preferred by the officer. 'But I didn't assault anybody,' cried the indignant traveller; 'I was merely slapping a friend on the back.' 'Oh yes! of course that's your version of it. The most charitable construction we can place on the affair is to call it disorderly conduct on the streets. Fine 10 dollars, and shell it out or you'll miss the train.' And, in spite of the victim's expostulations, he had to pay the money. As he made for the cars, the officer trotted along side and affably explained matters: 'You see stranger, about the only resource we have here is the travelling public, but we try to work the thing up quick, so as not to cause any detention. Whole thing through in five minutes. Ah! here we are, just in time for the train, see. Morning, mister.'"

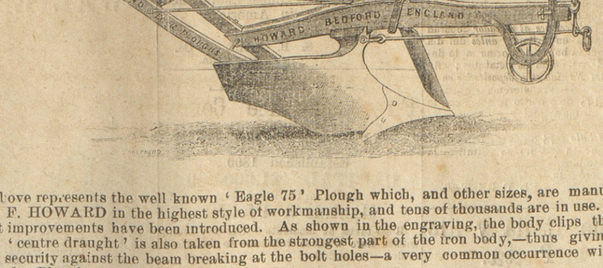
# HOWARD'S IMPROVED AMERICAN PLOUGHS



The above represents the well known 'Eagle 75' Plough which, and other sizes, are manufactured by J. & F. HOWARD in the highest style of workmanship, and tens of thousands are in use. Several manifest improvements have been introduced. As shown in the engraving, the body clips the beam, and the 'centre draught' is also taken from the strongest part of the iron body,—thus giving an additional security against the beam breaking at the bolt holes—a very common occurrence with American made Ploughs.

The beam is made of Oak, and can if required be fitted with a steel plate on each side.

The shares are hardened upon J. & F. HOWARD'S well known patented *water-chill* process, which renders them not only tough and hard, but ensures their wearing better and longer than made when by any other process.

Prices of the various sizes, Nos. 19, 19½, 25, 26, 55, 75, &c., sent on application.

The above Machines kept in Stock by the Principal Hardware Merchants.

**Dr. J. Collis Browne's Chlorodyne**

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freemen, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

**Dr. J. Collis Browne's Chlorodyne.**

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 6th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy,s Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

## Aviso Municipal

La Comision Municipal, reunida en Consejo, acuerda y ordena:

Art 1° —Despues de tres meses de la fecha no podra funcionar ninguno de los teatros existentes en la Capital si no tiene colocado para su servicio en el arco de embocadura del proscenio un telon metalico que aisle completamente a este de la sala en circunstancias dadas.

Art 2° —Durante toda representacion las empresas de teatros estan obligados a mantener guardianes encargados especialmente de este servicio.

Art 3° —Despues del plazo que senala el articulo 1° no se permitara dar espectaculos en ningun teatro que sus puertas no se abran de dentro para afuera, como lo prescribe la Ordenanza del 29 de Enero de 1871.

Art 3° —Desde que principie un espectaculo hasta que termine estaran abiertas todas las puertas de entrada del edificio que puedan dar acceso al publico.

Las puertas que conduzcan al proscenio y al resto del edificio, seran cubiertas de planchas de metal.

Art 5° —No es permitido alumbrar las galerias de dichos establecimientos en las noches de representacion sino con lamparas de aceite, no pudiendo hacerse uso para el servicio del gas en todo el interior de los mismos sino de cañeria de fierro incrustada en las paredes.

Art 6° —Es obligacion de las empresas tener un guardian especial que durante la representacion permanezca al lado del regulador para cerrarlo en caso necesario.

Art 7° —Es igualmente obligatorio a las empresas poner estos en comunicacion con el Departamento de Policia y la Oficina de Bomberos, colocando interior y exteriormente del edificio hilos electricos, susceptibles de ser utilizados en cualquier momento.

Art. 8° —El deposito de agua para casos de incendio, las cañerias conductoras, como el material necesario tiene que estar en relacion con el tamano del edificio y la cantidad de material inflamable que contenga. La oficina de Obras Publicas en cada caso determinara sus dimensiones.

La misma cuidara en adelante, cuando se le presenten los planos para construcciones de esta clase, de eliminar todo lo posible los materiales inflamables, exigiendo que se haga uso en cuanto se puede de los que no lo son. Es entendido pue las empresas deben costear el numero suficiente de hombres aptos para el servicio de las bombas.

Art 9° —La empresa que no diera cumplimiento a estas disposiciones no podra continuar funcionando como tal, a mas de satisfacer la multa de tres mil pesos m/c, que seran destinados a la subsistencia de los pobres del Asilo de Mendigos.

Art 10—En los edificios que en adelanta se construyan con tal objeto, se observara indispensablemente esta regla:

Cada piso en que esta dividido tendra su correspondiente salida al exterior, que en ningun caso podra ser de menos de tres metros de ancho.

Art 11—El cumplimento de esta disposicion se recomienda al Departamento de Policia interin se dicta el reglamento general de teatros que proveera al caso.

Art 12—La Secretaria mandara imprimir en una hoja suelta todas las disposiciones sobre teatros y espectaculos publicos incluso la presente ordenanza para entregar un ejemplar a cada empresa que entre a funcionar, la que debera colocarlo en un cuadro en lugar visible y de acceso al publico.

Art 13—Comuniquese, publiquese, etc. —TORCUATO DE ALVEAR.
